

Congratulations to Innovative Office Solutions on being one of the Minnesota 100 BEST COMPANIES TO WORK FOR WINNERS!

The 100 Best Companies to Work For competition salutes Minnesota organizations that are setting the standard for leadership, benefits, best work environment, innovative training programs and employee happiness. In its inaugural year, the awards recognize small, mid-sized and large businesses that continue to make an impact and set the standard of excellence for others to follow.

Beginning on February 15, 2012, independent research group, Gilmore Research, gathered information from employee satisfaction surveys over phone and mail. Over 5769 individuals responded on behalf of hundreds of companies. This is the 4th consecutive year Innovative has been recognized for this award.
