MULTI COLOR IMPRESSION COMPATIBLE

The majority of models in the Trodat Professional and Trodat Printy ranges are compatible with Multi Color Impression. You will find appropriate instructions with every product.

HOW MULTI COLOR WORKS

An un-inked special Multi Color Impression pad is cut by laser to exactly fit the color layout of the impression. The individual fields are inked automatically with exactly the right dose of color.

Self-Inking

Excellent for office use as well as for personal correspondence, the ink is kept in a replaceable ink pad that can be easily refreshed to make thousands of impressions. Compact, efficient and economical, Self inking stamps are a great option for your stamping needs.

THE ORIGINAL

The Trodat Printy is the innovation leader in compact self-inking stamps: The 45° angle of the text view window for easy identification, the non-slip soft-touch grip cap and the dynamic shape are unmistakably stylish.

HANDY

The handy all-round stamp is a reliable companion at home and when travelling; it is lightweight with compact construction.

MODERN DESIGN

Innovative and high quality materials, contemporary styling, plus practical functionality.
